DECORATION
CO., LTD.

About Aberdeen Decoration

The origin of the company name came from Aberdeen, the Granite City of Scotland, also known as Silver City. Not only is the name beautiful, it also represent the direction of the company's development. ADDSTONE Faux Stone Coating comes from years of granite paint production technology. Not only does it integrate the market demands of the building industry, it also developed environmental friendly water based, high degree of imitation, easy process and weather resistant stone like texture coating system. Aberdeen Decoration Co., Ltd. simultaneously developed professional stone like texture paint spraying technology and provide various composite materials for consumers to completely achieve their imagination towards granite stone.

Aberdeen will inherit the spirit of the granite stone which are perseverance and gentleness. With environmental friendly, high degree of imitation, easy to operate as the indicators for research development, Aberdeen will continue to develop various granite surfaces and or colors to achieve your imagination towards granite stone.
